LITERACY SUCCESS

STAFF: The content taught in this project is fabulous! I particularly like how students are extended "outwards" by open-ended tasks & questioning, as well as perfecting the skill of writing on demand, & not "upwards" where they are learning content year levels above. There are links to what the students know, such as figurative language, but this project scaffolds students so they can use these various techniques effectively.

STUDENT: I am learning loads, including computer skills and writing techniques that will make me a better author. I'm really psyched about that because I want to be the best writer I can be. I love that we are doing detective stories in Impact as I love Nancy Drew, Cluedo and Harry Potter. I'm really glad about that because it's helping me with my English at school and writing short stories for my family at home.

STUDENT: I always look forward to doing Write On with our amazing online teacher. I hope I can experience this again.
